AWARENESS

E-Waste EPR Rule (2022)

E-Waste EPR Rules (2022) Ensuring that your business is in compliance with the upcoming E-Waste EPR Rule (2022) is not just a legal requirement, it's also essential for the growth and prosperity of your enterprise. Ignoring these regulations could result in serious consequences but with the right compliance management strategy in place. Your business can thrive in a sustainable manner while contributing to a cleaner and heather environment.

As a producer of EEE, It is your responsibility to ensure that e-Waste is channelized through an authorised Recycler VIA and Effective EPR System.

All producers, manufacturers, bulk consumers and importers are required to obtain EPR authorisation, making it a mandatory process.

Non –Compliance of these rules will attract heavy fines and criminal action on the brand producers. In Fact, there can be a ban on the production of products.

Sr. No.	Categories of electrical and electronic equipment	EEE Code	Average Life
